Recall Details

In Conjunction With:

Description:

This recall involves certain Generac brand electric start pressure washers with model number G0089111, G0088941, G0088951 and DR Power brand electric start pressure washer with model number DPW3109DEN. The pressure washers have an electric start/stop button for the unit's gasoline-powered engines, as well as a rechargeable battery used to power the button. Model and serial numbers are printed on a label located on the product's frame. Consumers can check specific unit type, model number and serial number location information at <https://www.generac.com/support/product-info-user-manuals> by clicking on "Pressure Washers" at the bottom of the page.

Remedy:

Consumers should immediately stop using the recalled pressure washer and contact Generac to arrange for a free repair at your dealer's location. The pressure washer can still be used with the battery removed by using the pull-start option to start the unit.

Incidents/Injuries:

The firm has received six reports of the pressure washers self-starting. No injuries or property damage have been reported.

Sold At:

Major home improvement and hardware stores online and nationwide including Menards, Home Depot, and Amazon from November 2021 through February 2026 for between \$500 and \$590.

Manufacturer(s):

Generac Power Systems Inc., of Waukesha, Wisconsin

Manufactured In:

United States
