“DR” is printed on the motor housing. The model number on the walk-behind leaf vacuum is located on the front right side of the unit behind the wheel. The model number on the tow-behind leaf vacuum is on the impeller housing beside the engine.

### Remedy:

Consumers should immediately stop using the recalled leaf vacuums and contact DR Power for a free repair kit that includes a metal outer shield to be bolted onto the existing chute of the recalled leaf vacuums and installation instructions. Consumers can contact DR Power for information and assistance on making the repair. Consumers who responded to the original recall should nevertheless contact DR Power for the new remedy.

### Incidents/Injuries:

The firm has received 46 reports of loose pieces being ejected from the units. No injuries have been reported.

**Sold At:**

Independent power equipment stores nationwide and online at drpower.com from September 2014 through June 2025 for between \$1,300 and \$4,000.

**Manufacturer(s):**

Generac Power Systems Inc., of Waukesha, Wisconsin
